

- improve collegiality and communication among college and university discipline faculty and administrators
- outline the transfer student scholarship opportunities

In order to facilitate and improve the transfer process for our students, Hinds Community College and The University of Louisiana at Monroe hereby enter into the

PROVISIONS OF ARTICULATION AGREEMENT

1. The institutions will develop and maintain an expanded articulation crosswalk (see Appendix B).

5. The Expanded Articulation Crosswalk and degree program articulations will be reviewed annually by the Chief Academic Officer or designee at each institution. The institutions may add new courses and edit course offerings when necessary to improve student transfers between institutions.

6. The institutions will engage in joint marketing efforts to promote the articulation partnership. Promotional efforts will include, but are not limited to, links on respective websites for placement of articulation agreements, information in the institutional catalog, and transfer information in other college/university publications.

7. Hinds will make available a list of graduates and their corresponding degree programs and mailing addresses upon request of the receiving university in an effort to avail and encourage graduates to further their higher education at a 4-year institution.

8. The institutions will strive to meet annually with the university and college discipline faculty and administrators. These meetings will be directed by the chief academic officer or designee.

9. Students from Hinds Community College who wish to transfer to ULM will be

eligible for an out-of-state tuition waiver if they have completed 12 semester hours of college credit, have a cumulative g.p.a. of 2.5 on all college level work, have no remedial requirements, and are eligible to return to the previous institution.

10. Hinds students are eligible for the ULM Community College Achievement Award

TERMS

This agreement shall be effective on March 30, 2010 and shall continue until terminated
